

Equity Boost Promo Rules

1. Equity Boost is a bonus that is earned on a new client's first deposit of 100% of the deposit amount, up to \$5,000.
2. All deposits/withdrawals to/from the account before the first trade made by crediting money directly to the client's trading account, excluding transfers from agents, other accounts or transfers between Personal Areas of one client, are considered the first deposit.
3. The bonus is credited automatically. It can be canceled upon the withdrawal of funds from the trading account.
4. Equity Boost is termless until the first trade is executed. The bonus is provided only for one client's trading account. Once the first trade is opened, the offer has a 30-day validity period.
5. Equity Boost is part of the trading turnover requirement of \$1000 per 300 lots. If the trading turnover requirements on the trading account are met, the bonus (i.e. real money) will be credited to the trading account, and the client is free to do whatever they want with it.
